SPECIFICATIONS OF PROPOSED WORKS

This application must be accompanied by a location map, a detailed site plan, other related design drawings as required by the Conservation Authority, and payment of a processing fee as determined by the Conservation Authority (fees subject to change without notice). The detailed site plan must include:

- 1. Location of property in relation to roads (ie. distance from known intersection).**
- 2. Details of the type and intended location and dimensions of proposed fill, construction or watercourse alteration.**
- 3. Location and dimensions of all existing and proposed structures on the property and a survey plan (sketch) with lot dimensions.**
- 4. The elevations of existing buildings and grades, and the proposed elevations of buildings and grades after development.**
- 5. A plan of the area showing plan view and cross section details of the proposed alteration, including a description of the methods to be used in carrying out the alteration and a statement of the purpose of the alteration.**
- 6. An additional information pertaining to the proposed works, such as sediment and erosion control plans, drainage information and other technical reports.**

NOTES

A qualified Ontario Land Surveyor may be required to provide the geodetic elevations. A qualified engineer may be required to design the proposed work. Authority staff should be contacted to provide applicant with exact requirements for the subject proposal.
